Attached sheet to the Certificate No. TA22340M

This approval is conditional upon the followings:

1. The shaft diameter at the rubber binding part is not to be more than 300 mm.
2. The binding is to be carried out in accordance with the manufacture's standards at their works covering production methods, the testing and the inspection, the quality control and the workmanship.
3. The binding process, the testing and the inspection are to be carried out in the presence of the Society's surveyor.
